

# Frontier® 6.0

herbicide

## Supplemental Label

### For Distribution and Use Only in the State of South Dakota

#### Environmental Precautions and Soil Type Restrictions

EPA Reg. No. 7969-147

EPA SLN: SD-060004

This label expires June 30, 2011.

#### Directions for Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Refer to the container label for additional directions, restrictions and precautions. This labeling must be in the possession of the user at the time of application.

#### Environmental Precautions

Where groundwater is near the surface and the soil is coarse and permeable, agricultural chemicals have potential to contaminate the groundwater. The following restrictions have been developed to protect drinking water supplies.

##### Point source contamination:

Do not transfer, clean, wash, load, unload, rinse, refill, mix, or empty containers or equipment containing **Frontier 6.0®** herbicide or any other pesticide product within 150 feet of any well, sink holes, natural or impounded lakes and reservoirs, perennial or intermittent streams and rivers, or wetlands unless it is done so over a South Dakota Department of Agriculture approved operational area containment.

Any spilled material must be immediately recovered. Discharges in excess of 25 pounds active ingredient must be reported to the department. Recovered material must be properly stored and handled until proper disposal or use has occurred. The owner or operator shall provide written documentation to the department describing the cause of the discharge, recovery, and sampling procedures analysis reports, and disposition of the recovered materials within 30 days following the date the discharge occurred.

##### Movement dissolved in runoff or through soil:

Do not apply under conditions which favor runoff. Do not apply to impervious substrates such as paved or highly compacted surfaces or frozen soils. Runoff is minimized through practices that also reduce soil erosion. Slope, grass buffer/filter strips, soil types, tillage

practices and drainage conditions must be all considered to prevent contamination of surface water through runoff and erosion.

Groundwater contamination may occur in areas where soils are permeable or coarse and groundwater is near the surface. To minimize the possibility of groundwater contamination, carefully follow application rate recommendations as affected by soil type in the general information section of this label.

#### Use Restrictions Due to Soil Type

Do not apply **Frontier 6.0** if the following conditions exist:

- The water table is 30 feet or less below the ground surface, **and** the soil surface (0-6 inches), has an organic matter content of 3% or less.
- The water table depth **or** soil texture **or** percent organic matter is unknown.
- The presence of vulnerable soils.

Vulnerable (restricted) soils are those soils where a sand texture occurs at any depth in the soil profile. Vulnerable (restricted) soils also include those soils classified as sand (using the USDA system of textural classification of soil) which may be modified with terms including (but not limited to) bouldery, cobbly, stoney, gravelly, coarse, medium, fine, or very fine.

If a field contains several soils, one of which is included in the above restriction, do not apply **Frontier 6.0**.

#### Conditions of Sale and Warranty

The **Directions For Use** of this product reflects the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of BASF CORPORATION ("BASF") or the Seller. All such risks shall be assumed by the Buyer.

BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the **Directions For Use**, subject to the inherent risks, referred to above.

BASF MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY. TO THE EXTENT PERMITTED BY LAW, BASF OR THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. BASF and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing **Conditions of Sale and Warranty** which may be varied only by agreement in writing signed by a duly authorized representative of BASF.
